ALLRUBBER

CONVEYING CONFIDENCE

WHO WE ARE

Our philosophy is simple; we believe in providing the best possible outcomes for our clients.

All Rubber is a leading supplier of conveyor belting, conveyor products and rubber lining. We operate in Western Australia, providing industry leading products as well as first-rate services to a wide range of industries.

Over the years we have worked with many leading Australian companies and we are proud of our ability to understand and exceed client expectations, through the delivery of a safe and professional service.

CAPABILITY

Industry leading products coupled with superior service capabilities.

PRODUCTS

We have our own brand of **'Eagle' rubber conveyor belts** and **'Kontex' lining rubbers** which are manufactured to our own specifications, which exceed national Australian standards.

In addition, we have partnered with **world leading manufacturers** in the conveyor industry, enabling us to provide a full range of conveyor products and accessories.

We have **distribution agreements** in place (some exclusive) with Flexco, 4B, Weir Minerals (Linatex), Forbo Seigling and Optibelt and have direct access to many other conveyor product manufacturers.

Our **stock holding is significant** with over \$5m held in our warehouses, allowing us to immediately satisfy our clients' needs.

SERVICES

Our **service and installation team** are all appropriately qualified and our equipment is all current, best available and certified as required.

We can **hot join** belts up to 3m wide with our vulcanizers and have the necessary winches, winders, stands and other equipment for any size belt. We also have enough equipment to service multiple sites at the same time.

Pro Rubber is the rubber lining division of All Rubber and our facilities includes 2D and 3D waterjet cutters as well as two autoclaves (3m OD x 9m) for hot curing. With over 25 rubber liners on site, this is a rapidly growing part of our business.

1. BELTING AND INSTALLATION

Our world class conveyor belts are the lifeblood of the businesses we supply. We provide a range of options to address all handling applications as well as installation, so they are ready to go as soon as you need them.

GENERAL PURPOSE AND SPECIALTY BELTING (INCLUDING BUT NOT LIMITED TO):

- Super abrasion resistant
- Oil resistant
- Heat resistant (up to 200C)
- Anti-static
- Fire resistant belting (FRAS / FRAS S)
- Cleated belts
- Cleated sidewall belts
- Kevlar belts
- Truly endless belts
- Negative grooved belts

COVER COMPOUND GRADES

- N, M, E, HAR, XCG

CARCASSES & REINFORCEMENT

- PN and NN
- Steel cord
- Solid woven
- Crows foot weave

CHEVRON BELTING

- Sergeant
- V-Cleat
- Bull Horn
- Multi-V

PLYS, WIDTHS AND THICKNESSES

- 2, 3 or 4 ply available
- Stocked widths include 350mm to 2400mm without longitudinal joints
- Stocked thicknesses include 1.5mm to 21mm top cover and 1.5mm to 7mm bottom cover
- Higher widths and thicknesses available on request

2. CONVEYOR SERVICING

When machinery is lying idle due to a breakdown or system faults, you need it up and running immediately. At All Rubber, our service technicians are highly experienced, fully trained and they're available **24 hours a day, 7 days a week.**

WHAT WE COVER

We have the resources to service multiple sites at the same time and cover all types of break downs from small belt replacements to large shut downs and belt change outs.

ROUTINE MAINTENANCE

Regular checks and maintenance work will prolong the life of your machinery, ensuring it is running at maximum capacity and complies with health and safety regulations. It will also significantly reduce the likelihood of a future breakdown. Our experts can provide belt inspections and reporting, advising on what needs immediate attention and what may need replacing at a future date.

REPAIRS

We'll make every effort to repair a belt before replacing it. We can perform rip, edge and splice repairs as well as mend holes, gouges and skirting problems. We perform:

- Cold-bonded repairs
- Hot-vulcanized repairs
- Mechanical repairs
- Trowellable repairs

If a repair isn't feasible, we'll provide a belt insert with splicing before recommending a changeout.

3. CONVEYOR ACCESSORIES

Complementing your system with the right conveyor accessories will ensure your conveyor is running smoothly and efficiently. It can also extend the life of your system and facilitate long-term reliability, productivity and safety.

PRODUCTS

- Pulleys
- Rollers and idlers
- Belt cleaners
- Ploughs
- Belt tracking
- Belt fasteners
- Impact beds
- Skirting rubber

TECHNICAL ISSUES RESOLVED

Our team can talk through any problems you may be having with your belt to find a solution – whether it's spillage or tracking issues, we can assist.

We have the capacity to install conveyor accessories and provide ongoing maintenance for your system too.

4. RUBBER LINING

Pro Rubber is the rubber lining division of All Rubber. With over 25 rubber liners operating both onsite and within our workshops, our rubber lining team are extremely skilled, experienced and work to the highest standard.

Here is a selection of items we can line but we can service almost every request:

- Tanks, chutes and hoppers
- Various shaped and sized pipes
- Underpans
- Trommels
- Beams, side pates and screens
- Cyclones and pulleys
- Customised gaskets, seals and loading socks

CAPABILITIES

- Hot rubber lining
- Cold rubber lining
- 2D and 3D waterjet cutting
- Rubber and Ceramic Lagging

We also offer onsite inspection and repairs with quality assurance.

4. RUBBER LINING

BLASTING, PRIMING AND PAINTING

We provide all the services, including stringent quality control, that may be required alongside rubber lining including steel fabrication, blasting, priming and painting of equipment. This makes the process easy and efficient for our clients, reducing transport and handling costs.

ULTRA HIGH-PRESSURE WATER JETTING

We offer a complete in-house service for refurbishing equipment which requires removal of rubber and other linings prior to re-lining.

FABRICATION OF RUBBER COMPONENTS

We are able to fabricate rubber components from rubber sheets and extrusions by an adhesive bonding process, which eliminates the need for costly tooling for short run components.

DUST SUPPRESSION CURTAINS

Produced to act as a sealing system at the load exit zone, the inner curtain is a solid sheet whilst the exit curtain will have vertical strips.

5. PULLEY LAGGING

Pulley lagging can extend the life of key conveyor components, reduce wear, prevent belt slippage and prevent the build-up of transported bulk material.

We provide pulley lagging on site or at our premises, whichever is most convenient.

RUBBER LAGGING

- Kolag pulley lagging sheets
- Kolag pulley lagging strips
- Flex-Lag rubber
- Flex-lag weld on

CERAMIC LAGGING

- Kolag ceramic lagging

RANGE

We offer a light weight resistant finish through to robust heavy duty finish and is available where protection against abrasion, chemicals, heat and noise are required.

PULLEY MANUFACTURE

We can fabricate pulleys as well as line them if required.

6. WEAR PRODUCTS

Investing in protective wear products will maintain the life of your system, protecting your machinery and reducing overhead costs.

CURED RUBBER SHEETING

We provide our own branded range of cured rubber sheeting (Kontex), which has a high level of durability and adaptability, as well as the complete range of Linatex.

RUBBER PULLEY LAGGING

We offer several different types of pulley lagging such as plain or grooved, which each have different variations, specifications and purposes.

CERAMIC LAGGING

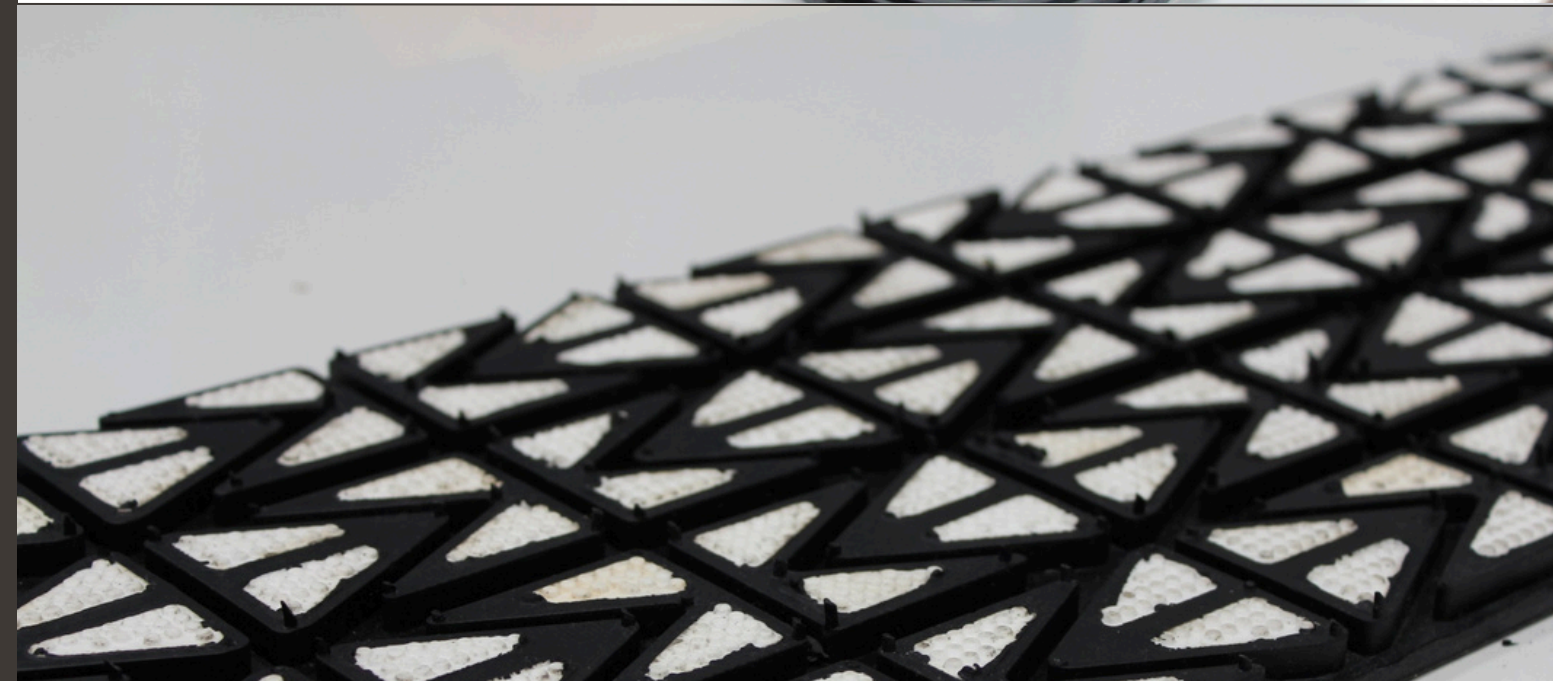

Our Kolag ceramic lagging is designed with a dimple profile and unique arrow-boss design, to ensure maximum water shedding.

RUBBER SCREEN MATS

We offer a range of high performance rubber screen mats from leading brand, ScreenTek, that can be tailored to your specific requirements.

RUBBER ADHESIVES

Our rubber adhesives can be used to bond rubber to rubber, or rubber to metal for use in rubber lining (as well as a range of other materials).

7. MATERIALS HANDLING

We offer a comprehensive range of equipment to cater for all material handling applications.

- Extensive stock and partnership network
- Quick and efficient installation
- Experienced sales team

EQUIPMENT

- Roller Conveyor Systems
- Waste and Storage Bins
- Lifting and Handling Equipment
- Stillage and Storage Cages
- Forklift Attachments
- Wheels and Castors
- Trolleys and Carts
- Drum Handling and Storage
- Crane and Overhead Lifting
- Concrete Equipment (Kibbles)

8. MOBILE CONVEYORS

Our mobile conveyor systems are among the most efficient in the industry, both mechanically and economically.

POWERED CONVEYORS

- Heavy Duty Belt Under Roller Conveyor
- Chain Driven Roller Conveyors
- Belt Type Powered Conveyors
- Special Material Type Powered Conveyors

OPTIONS

- Available as steel or polypropylene
- Bends, mitres, switches and gates can be integrated
- All units supplied with guards or covers where appropriate
- Painted, galvanized or powder coated frames
- Stainless steel frames and adjustable stands

GRAVITY CONVEYOR OPTIONS

- Single or Multi-Lane Gravity Conveyors
- Skate Wheel Conveyors
- Hinged Gate Conveyors
- Curved Gravity Conveyors

9. BUCKET ELEVATORS

We supply an extensive range of elevator buckets from international market leader, 4B Group. This includes:

- **Elevator Components**
- **Chain Components**
 - En-masse chain conveyors
 - Drag chain conveyors
- **Monitoring Equipment**
 - Belt conveyor monitoring
 - Chain conveyor monitoring
 - Bucket elevator monitoring
 - Screw conveyor monitoring
 - Silo monitoring

10. PVC, PU & TIMING

We provide a versatile range of PVC and PU belts. They can be smooth or embossed and can fit any longitudinal or latitudinal profiling in our workshop.

- PVC General Purpose Belts
- PVC Food Grade Belts
- PVC Solid Woven Belts
- PU Food Grade Belts
- PU Industrial Belts
- Flat Transmission Belts
- Modular Conveyor Belts
- Attachments and Cleats

DRIVE, TIMING AND SYNCHRONOUS BELTS

We also provide a wide range of these from leading brand Optibelt. Some options include:

- V-belts
- Rubber timing belts
- PU timing belts
- Ribbed belts
- Kraftbands

Technical devices, couplings, and spare parts for vehicles also available.
